DETAILED ACTION

Specification

The disclosure should be carefully reviewed to ensure that any and all grammatical, idiomatic, and spelling or other minor errors are corrected.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 26, 27 and 32 are rejected under 35 U.S.C. 102(b) as being anticipated by EP 0 432 639 A2. The reference discloses a method for equalizing the charges among the storage elements having, *inter alia*, primary circuits having primary windings 27 and secondary circuits having secondary windings 31 and they are connected in parallel to the storage elements.

Allowable Subject Matter

Claims 1-25 are allowed.

Art Unit: 2838

Claims 28-31 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
